

CashIO Bronze

powered by

CountR

A cost-effective, standardised solution with optimized features for small locations, including ticket redemption, player cards, and ATM services.

Features

2D SCANNER: QR and Barcode

ATM (with Pinpad): Cash withdrawal via ATM, debit or credit card.

BILL DISPENSER: Equipped with four note cassettes, each capable of holding up to 500 bills, secured within a 6mm steel safe.

DIP CARD READER: Magstripe or smart cards.

RECEIPT PRINTER: 330 ft roll.

SOFTWARE: Proven CashIO System Software. Connectivity to nearly 100 (casino) management systems worldwide.

ART SERVER AND ART CONNECT INTERFACE

Optional

ART SERVER: Enables monitoring, management, and remote-control access for the CashIO. Features include on-screen advertising, automated remote updates, group management, and cash management optimisation.

ART CONNECT: A user-friendly system providing online access to slot machines, integrated with CashIO redemption kiosks at remote locations for seamless ticket creation and redemption
